PROFILE

Computer Science and Engineering student at American International University-Bangladesh (AIUB) with interest in data analysis, web development, and practical problem-solving. Skilled in C++, Java, Python, HTML, CSS, JavaScript, Microsoft Excel, Word, and PowerPoint, with a strong foundation in programming concepts, teamwork, and communication. Interested in software engineering, web development, data analysis, and database systems.

SKILLS

Programming Languages: C++, Java, Python

Web Technologies: HTML, CSS, JavaScript, JSON, AJAX

Database: MySQL

Tools & Software: Git, GitHub, VS Code, PyCharm, Microsoft Excel, Word, PowerPoint

Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Adaptability, Critical Thinking

PROJECTS

E-book Store — Java Program

- Worked on the admin panel in a university group project.
- Practiced Java programming and basic software development workflow.

Smart Krishi Bazar — Agricultural Marketplace

PHP, MySQL, HTML, CSS, JavaScript

- Built a multi-role marketplace for farmers, sellers, customers, and admins.
- Developed product listing, image upload, category filtering, and seller management features.
- Implemented login, registration, session handling, and role-based access control.
- Created a shopping cart with local storage and automatic price calculation.
- Designed an admin dashboard to manage users, sellers, and products.

Cricket Match Management System — Database Project

- Designed a MySQL database to manage teams, players, matches, and statistics.
- Created relational tables and implemented SQL CRUD operations.

THESIS PROJECT

IoT-Based Soil Nutrient Analysis and Recommendation System for Crops Using Machine Learning

Bachelor's Thesis | American International University-Bangladesh (AIUB)

- Developing an IoT-based system to collect soil and environmental parameters such as N, P, K, pH, temperature, moisture, conductivity, and fertility.
- Applying machine learning techniques to analyze soil conditions and recommend suitable crops for Bangladesh.
- Integrating ESP32 and environmental/soil sensors for real-time data collection and prediction.
- Building a data-driven crop recommendation framework using Python and Scikit-learn.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science and Engineering

American International University-Bangladesh (AIUB) | 2022–Present

CGPA: 3.33**/4.00**

Higher Secondary Certificate (Science)

Uttara High School and College | 2021 | GPA: 5.00/5.00

Secondary School Certificate (Science)

Uttara High School and College | 2019 | GPA: 4.72/5.00

RELEVANT COURSEWORK

- Object-Oriented Programming (Java)
- Data Structures & Algorithms
- Database Management Systems
- Web Technologies
- Software Engineering
- Computer Networks
- Operating Systems

CERTIFICATIONS

- Cisco Networking Academy — Introduction to Networks

ACHIEVEMENTS & ACTIVITIES

- Participant, 6th JUSC National Math Olympiad 2019, organized by Jahangirnagar University Science Club (JUSC).

LANGUAGES

- Bengali — Native
- English — Proficient
